WarioWare: Twisted!

PLATFORM: ESRB RATING:

GAMEPAD RATING

9

More than 200 fast-paced mini-games played, for the most part, by tilting your GameBoy from side to side.

GP REVIEW

Kooky mini-games are a twisting good time!

Reviewed By: [gp_boogiewoogie](#)

Uh oh! Wario busted up his GBA pretty bad and now he needs help fixing it! He gets the Doc to fix it up, but there's something different about how you play; now your GameBoy is controlled by movement. How cool!

When you yank WarioWare: Twisted! out of the box, you'll notice something different about the cartridge right away; it's got this big protruding chunk sticking out of it. That's because Nintendo had to pack some extra action into the cart.

[More Screens...](#)

You see, most of the mini-games are played by moving your GBA from side to side; you're dodging asteroids, synchronize swimming, balancing kitties on a barrel, and loads of other crazy things. You might get some odd sideways glances while playing this game, so be careful. Don't get too excited and accidentally elbow somebody on the bus while you're playing!

Not only does your cart sense movement, but it also has a rumble pack; being able to feel movement really enhances gameplay! The use of the rumble pack and sound effects is great, especially scrolling through the menus – tick, tick, tick; it feels like your actually turning a wheel.

WarioWare mini-games are always fast-paced and kooky; this title is no exception. All in all WarioWare: Twisted! boasts 200 mini-games; each crazier than the last. But how are they broken down? Well, you've got your story mode – play a character's story, get to the boss stage, unlock the next character, and so on. You can also hit the Spindex and go back and play your fave mini-games; as you play new games, they open up in the Spindex. And of course, like any other WarioWare game, you've got a place to store all those crazy souvenirs you collect, like records you can get 9-Volt to DJ with, snow globes, and loads of other weird items you'll probably only play once.

WarioWare: Twisted! has completely monopolized my game playing lately, and to me the sign of a good game is the addiction factor. If I'm drawn in right away, I'm in love! And guess what? WarioWare: Twisted! has stolen my heart! Swoon! This is definitely a title I would slap my hard-earned cash down for, so if you've got a birthday coming up and you've been contemplating getting a new game, this is a good investment.
